EXPLOR INCREASES OGDEN PROPERTY

Rouyn-Noranda, Canada, December 14, 2017 - Explor Resources Inc. (“Explor” or “the Corporation”) (TSX-V: EXS, OTCQB: EXSFF, FSE & BE: E1H1) is pleased to announce the acquisition of two (2) mining claims (3 units) situated in the Ogden Township, in the Porcupine Mining Division, District of Cochrane, Province of Ontario for a total of 48.56 hectares. These claims are located in Ogden Township contiguous and to the east of the Timmins Porcupine West Gold Property. Highway 101 West is north of the property and provided excellent access to the city of Timmins. The claims were acquired because of encouraging results obtained in Explor’s past exploration on this property.

Explor Resources Inc. will pay CDN \$2,000 and issue 100,000 common shares to acquire a 100% interest in the additional Ogden mining claims. The Optionors have retained a 2% NSR in the property. This acquisition is subject to the approval of the TSX Venture Exchange.

With this acquisition, the Ogden property now consists of 23 mining claims (118 mineral claim units) and 7 patented mining claims covering 2,006.56 hectares situated in the Porcupine mining division, district of Cochrane, in the Ogden and Price Townships, Ontario. The Ogden property has been previously explored by Hollinger Mines, Tex-Sol Exploration, Inmet Mining Corporation, Amax Mineral Exploration, Noranda Exploration and Knick Exploration. The majority of the holes drilled by previous operators were less than 100 meters in length. Historically on the Ogden Property, the only hole that hit significant mineralization was a diamond drill hole by Tex-Sol Exploration in 1965 which returned 6.0 g/t Au over 9.1 m at a shallow depth. On the TPW Gold Property significant mineralization was intersected below 300 meters of vertical depth requiring drill holes of 500 to 600 m in length.

The most significant deposits in Timmins are spatially associated with porphyry units that are in proximity to the Porcupine Destor Fault. The deposits appear to be also associated with splay faults that trend off and to the North of the Porcupine Destor fault inside an interpreted splay fault corridor.

Explor Resources Inc. is a publicly listed company trading on the TSX Venture (EXS), on the OTCQB (EXSFF) and on the Frankfurt and Berlin Stock Exchanges (E1H1).

This Press Release was prepared by Explor. Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the Policies of the TSX Venture Exchange) has reviewed or accepts responsibility for the adequacy or accuracy of this release.

About Explor Resources Inc.

Explor Resources Inc. is a Canadian-based natural resources company with mineral holdings in Ontario, Québec, Saskatchewan and New Brunswick. Explor is currently focused on exploration in the Abitibi Greenstone Belt. The belt is found in both provinces of Ontario and Québec with approximately 33% in Ontario and 67% in Québec. The Belt has produced in excess of 180,000,000 ounces of gold and 450,000,000 tonnes of cu-zn ore over the last 100 years. The Corporation was continued under the laws of Alberta in 1986 and has had its main office in Québec since 2006.

Explor Resources Flagship project is the Timmins Porcupine West (TPW) Project located in the Porcupine mining camp, in the Province of Ontario. The TPW mineral resource (Press Release dated August 27, 2013) includes the following:

Open Pit Mineral Resources at a 0.30 g/t Au cut-off grade are as follows:

Indicated:	213,000 oz (4,283,000 tonnes at 1.55 g/t Au)
Inferred:	77,000 oz (1,140,000 tonnes at 2.09 g/t Au)

Underground Mineral Resources at a 1.70 g/t Au cut-off grade are as follows:

Indicated:	396,000 oz (4,420,000 tonnes at 2.79 g/t Au)
Inferred:	393,000 oz (5,185,000 tonnes at 2.36 g/t Au)
